Contents

Number 1, January 1987

1 Point of view
A. SAUL: Kinetic constraints on the development of a malaria vaccine

11 M. BELOSEVIC and G. M. FAUBERT: Lysis and immobilization of *Giardia muris* trophozoites *in vitro* by immune serum from susceptible and resistant mice

21 E. LAGES-SILVA, L. E. RAMIREZ, A. U. KRETTLI and Z. BRENER: Effect of protective and non-protective antibodies in the phagocytosis rate of *Trypanosoma cruzi* blood forms by mouse peritoneal macrophages

31 T. ABE and Y. NAWA: Reconstitution of mucosal mast cells in W/W^v mice by adoptive transfer of bone marrow-derived cultured mast cells and its effects on the protective capacity to *Strongyloides ratti*-infection

39 Z. CABRERA and R. M. E. PARKHOUSE: Isolation of an antigenic fraction for diagnosis of Onchocerciasis

49 R. M. MAIZELS, J. BURKE and D. A. DENHAM: Phosphorylcholine-bearing antigens in filarial nematode parasites: analysis of somatic extracts, in-vitro secretions and infection sera from *Brugia malayi* and *B. pahangi*

67 R. LUCIUS, A. KAPAUN and H. J. DIESFELD: *Dipetalonema viteae* infection in three species of rodents: species specific patterns of the antibody response

81 M. MARCHAND, S. DAOUD, R. G. TITUS, J. LOUIS and T. BOON: Variants with reduced virulence derived from *Leishmania major* after mutagen treatment

93 A. SARTORI, A. V. DE OLIVEIRA, M. C. ROQUE-BARREIRA, M. A. ROSSI and A. CAMPOS-NETO: Immune complex glomerulonephritis in experimental kala-azar

105 R. A. DE ROSSELL, R. S. BRAY and J. ALEXANDER: The correlation

between delayed hypersensitivity, lymphocyte activation and protective immunity in experimental murine leishmaniasis

117 T. C. JONES, S. ALKAN and P. ERB: Murine spleen and lymph node cellular composition and function during cyclophosphamide and splenectomy induced resistance to *Toxoplasma gondii*

133 J. E. BADLEY, R. B. GRIEVE, J. H. ROCKEY and L. T. GLICKMAN: Immune-mediated adherence of eosinophils to *Toxocara canis* infective larvae: the role of excretory-secretory antigens

145 Brief communication
D. GOLD, H. AULI and Y. KEISARI: Comparative inflammatory reactions in mice and hamsters to *Entamoeba histolytica*

Number 2, March 1987

151 Point of view
G. DOUGAN, C. E. HORMAECHE and D. J. MASKELL: Live oral *Salmonella* vaccines: potential use of attenuated strains as carriers of heterologous antigens to the immune system

161 S. P. NICKELL, R. R. FREEMAN and G. A. COLE: Depression of virus-specific cytotoxic T-cell responses during murine malaria

175 A. ALCINA and M. FRESNO: Activation by synergism between endotoxin and lymphokines of the mouse macrophage cell line J774 against infection by *Trypanosoma cruzi*

187 M. S. DEHLAWI, D. WAKELIN and J. M. BEHNKE: Suppression of mucosal mastocytosis by infection with the intestinal nematode *Nematospiroides dubius*

195 R. W. LEID, R. F. GRANT and C. M. SUQUET: Inhibition of equine neutrophil chemotaxis and chemokinesis by a *Taenia taeniaeformis* proteinase inhibitor, taeniaestatin

205 C. S. PAVIA: Thymocyte-dependent immunity to toxoplasmosis in the normal and immunocompromised guinea-pig host

219 A. CARR and D. I. PRITCHARD: Antigen expression during development of the human hookworm, *Necator americanus* (Nematoda)

235 K. R. RASMUSSEN and W. M. KEMP: *Schistosoma mansoni*: interactions of adult parasites with the complement system

249 R. A. SALATA, J. G. COX and J. I. RAVDIN: The interaction of human T-lymphocytes and *Entamoeba histolytica:* killing of virulent amoebae by lectin-dependent lymphocytes

263 Brief communication
R. M. E. PARKHOUSE and L. J. S. HARRISON: Cyst fluid and surface associated glycoprotein antigens of *Taenia* sp. metacestodes

269 Brief communication
M. W. KENNEDY, A. M. S. GORDON, L. A. TOMLINSON and F. QURESHI: Genetic (major histocompatibility complex?) control of the antibody repertoire to the secreted antigens of *Ascaris*

275 Brief communication
B. DESCAMPS-LATSCHA, F. LUNEL-FABIANI, A. KARABINIS and P. DRUILHE: Generation of reactive oxygen species in whole blood from patients with acute falciparum malaria

Number 3, May 1987

281 A. GANSMULLER, A. ANTEUNIS, S. M. VENTURIELLO, F. BRUSCHI and R. A. BINAGHI: Antibody-dependent in-vitro cytotoxicity of newborn *Trichinella spiralis* larvae: nature of the cells involved

293 M. LI and Y. J. LI: The production of reactive oxygen species in mice infected or immunized with *Plasmodium berghei*

305 E. FINE, J. INSELBURG, J. OBEING and A. HANSON: *Plasmodium falciparum*-inhibitory monoclonal antibodies produced by human hybridomas

321 N. KUMAR: Target antigens of malaria transmission blocking immunity exist as a stable membrane bound complex

337 J. R. GORDON and J. R. ALLEN: Isolation and characterization of salivary antigens from the female tick, *Dermacentor andersoni*

353 R. H. DWINGER, M. MURRAY and S. K. MOLOO: Potential value of localized skin reactions (chancres) induced by *Trypanosoma congolense* transmitted by *Glossina morsitans centralis* for the analysis of metacyclic trypanosome populations

363 J. A. ELLIS, J. R. SCOTT, N. D. MACHUGH, G. GETTINBY and W. C. DAVIS: Peripheral blood leucocyte subpopulation dynamics during *Trypanosoma congolense* infection in Boran and N'Dama cattle: an analysis using monoclonal antibodies and flow cytometry

379 G. E. ROELANTS and M. PINDER: The virulence of *Trypanosoma congolense* can be determined by the antibody response of inbred strains of mice

389 Brief communication
N. YOSHIDA and M. F. ARAGUTH: Trypanolytic activity and antibodies to metacyclic trypomastigotes of *Trypanosoma cruzi* in non-Chagasic human sera

395 Brief communication
M. PINDER, A. VAN MELICK and G. VERNET: Analysis of protective

epitopes on the variant surface glycoprotein of a *Trypanosoma brucei brucei* (DiTat 1.3.) using monoclonal antibodies

401 Brief communication
E. DEVANEY: Preliminary studies on the characterization of the M_r 30 000 surface antigen of *Brugia pahangi*

Number 4, July 1987

407 M. W. KENNEDY, R. M. MAIZELS, M. MEGHJI, L. YOUNG, F. QURESHI and H. V. SMITH: Species-specific and common epitopes on the secreted and surface antigens of *Toxocara cati* and *Toxocara canis* infective larvae

421 V. M. NANTULYA, A. J. MUSOKE, F. R. RURANGIRWA, N. SAIGAR and S. H. MINJA: Monoclonal antibodies that distinguish *Trypanosoma congolense, T. vivax* and *T. brucei*

433 L. H. KASPER: Isolation and characterization of a monoclonal anti-P30 antibody resistant mutant of *Toxoplasma gondii*

447 B. M. SISLEY, C. D. MACKENZIE, M. W. STEWARD, J. F. WILLIAMS, J. O'DAY, A. J. F. LUTY, M. BRAGA and H. EL SHEIKH H.: Associations between clinical disease, circulating antibodies and C1q-binding immune complexes in human onchocerciasis

465 C. H. WANG and R. G. BELL: *Trichinella spiralis*: Intestinal expression of systemic stage-specific immunity to newborn larvae

477 T. ABE and Y. NAWA: Localization of mucosal mast cells in W/W^v mice after reconstitution with bone marrow cells or cultured mast cells, and its relation to the protective capacity to *Strongyloides ratti* infection

487 A. BARRAL, A. R. JESUS, R. P. ALMEIDA, E. M. CARVALHO, H. ROCHA and W. D. JOHNSON: Evaluation of T-cell subsets in the lesion infiltrates of human cutaneous and mucotaneous leishmaniasis

499 C. L. BALDWIN, B. M. GODDEERIS and W. I. MORRISON: Bovine helper T-cell clones specific for lymphocytes infected with *Theileria parva* (Muguga)

515 H. KAMIYA, S. R. SMITHERS and D. J. MCLAREN: *Schistosoma mansoni*: autoradiographic tracking studies of isotopically-labelled challenge parasites in naive and vaccinated CBA/Ca mice

Number 5, September 1987

531 S. L. JAMES: Induction of protective immunity against *Schistosoma*

mansoni by a non-living vaccine. V. Effects of varying the immunization and infection schedule and site

543 J. COX, S. SEMOFF and M. HOMMEL: *Plasmodium chabaudi*: a rodent malaria model for in-vivo and in-vitro cytoadherence of malaria parasites in the absence of knobs

563 W. I. MORRISON, B. M. GODDEERIS, A. J. TEALE, C. M. GROOCOCK, S. J. KEMP and D. A. STAGG: Cytotoxic T-cells elicited in cattle challenged with *Theileria parva* (Muguga): evidence for restriction by class I MHC determinants and parasite strain specificity

579 R. L. TARLETON and D. W. SCOTT: Initial induction of immunity, followed by suppression of responses to parasite antigens during *Trypanosoma cruzi* infection of mice

591 D. A. LAMMAS, L. A. MITCHELL and D. WAKELIN: Adoptive transfer of enhanced eosinophilia and resistance to infection in mice by an *in vitro* generated T-cell line specific for *Mesocestoides corti* larval antigen

603 J. F. HUNTLEY, S. GIBSON, D. BROWN, W. D. SMITH, F. JACKSON and H. R. P. MILLER: Systemic release of a mast cell proteinase following nematode infections in sheep

615 A. R. MILNER, J. A. BEALL and A. ORWAT: Two-dimensional electrophoretic comparison of the antigens and biosynthetically labelled proteins of *Trichostrongylus colubriformis* and *Ostertagia circumcincta*

Number 6, November 1987

627 A. JASSIM, K. HASSAN and D. CATTY: Antibody isotypes in human schistosomiasis mansoni

651 A. JASSIM, D. CATTY and K. HASSAN: Antibody isotypes of immune complexes in schistosomiasis mansoni in Sudan

667 D. J. MCLAREN, M. STRATH and S. R. SMITHERS: *Schistosoma mansoni*: evidence that immunity in vaccinated and chronically infected CBA/Ca mice is sensitive to treatment with a monoclonal antibody that depletes cutaneous effector cells

683 B. C. ROSSI, R. T. DEAN and R. J. TERRY: Macrophage procoagulant activity in experimental African trypanosomiasis

697 B. C. ROSSI, R. T. DEAN and R. J. TERRY: T-lymphocyte requirement for the induction of mouse macrophage procoagulant activity by *Trypanosoma brucei*

705 P. R. CROCKER, E. V. DAVIES and J. M. BLACKWELL: Variable expression of the murine natural resistance gene *Lsh* in different macrophage populations infected *in vitro* with *Leishmania donovani*

721 T.-V. PHAM and J. MAUËL: Studies on intracellular killing of *Leishmania major* and lysis of host macrophages by immune lymphoid cells *in vitro*

737 C. F. WILSON, R. ANAND, J. T. CLARK and J. S. MCBRIDE: Topography of epitopes on a polymorphic schizont antigen of *Plasmodium falciparum* determined by the binding of monoclonal antibodies in a two-site radioimmunoassay

747 W. ZHOU and Y. LI: Anti-idiotypic antibodies: preparation and identification; application to the detection of antigens of *Plasmodium falciparum*

757 J. ARELLANO, A. ISIBASI, R. MIRANDA, F. HIGUERA, J. GRANADOS and R. R. KRETSCHMER: HLA antigens associated to amoebic abscess of the liver in Mexican mestizos

761 Author index to Volume 9
